

# MODEL 960 SPECIFICATIONS

## Remote Display

### Features

The Model 960 Display is designed to work with the Timer Keypad. The Display has 5.5 inch tall digits viewable up to 125 feet and is encased in an aluminum extruded cabinet.

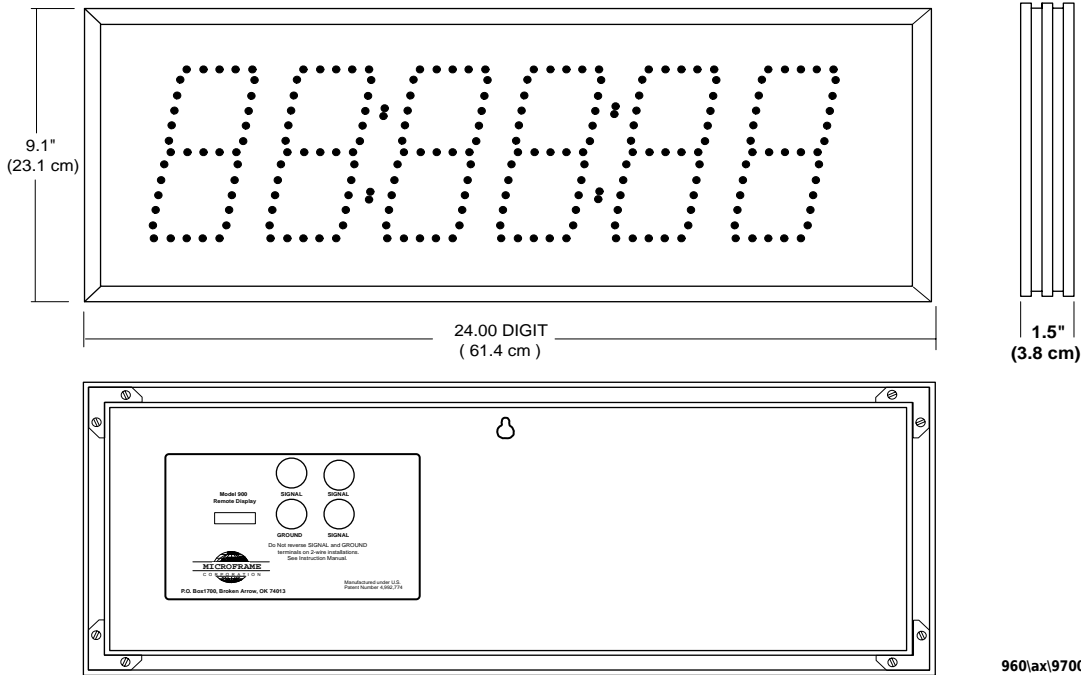

### Operation

The Remote Display is designed to operate with the Model 906 Keypad or Model 6200 Timer Keypad. The Remote Display receives power and signal from a single cable connected to the Keypad and is turned on or off with the Keypad power switch. This Display is used to show hours minutes and seconds from both timers on the 6200 Keypad.
