

VISUAL-PAGER® Nursery Call System

BENEFITS

- Give parents peace of mind
- Page parents silently and discreetly
- Eliminate ushers searching for parents
- Increase security for children in the nursery
- Boost visitor and church attendance
- Free Nursery Handbook with every order

Wired Visual-Pager® System
From \$468

ADVANTAGE

The advantage of using the Visual-Pager® compared with the nursery call systems is simple: it is affordable and reliable. With no batteries to replace or pagers to lose and maintain, the Visual-Pager® is virtually maintenance-free, and it is easy to install. Multiple displays can be utilized to enhance viewing in the sanctuary, or to place in various locations throughout the church.

APPLICATION

Discreetly page parents to the nursery by displaying their child's assigned number in the church sanctuary. This assures parents they will be notified immediately should their child need them, while eliminating the disturbance of ushers searching for parents. The Visual-Pager® can also be used to page additional nursery workers when extra help is needed, or to page medical personnel if a medical emergency arises.

Wireless Visual-Pager® System
